Rebecca was helping me with getting photos into Response Manager for both the assessment and removal.

Sam was answering my questions regarding the hazcatting event.

All sampling that I've done for LeRoy (went to his lab) I have done under the removal.

Daniel:

I have reviewed the 1900-55's:

Removal: The backup for Rebecca shows Data Management for 2/13/15. Is this correct? It appears that you may have split her hours between the Removal and Assessment. See Clarification Below. Didn't she help you pull samples? Also, there is no comment on the 1900-55 for her hours but just on the backup.

Assessment: The backup for Rebecca shows Data Management for 2/13/15. Is this correct? It appears that you may have split her hours between the Removal and Assessment. See Clarification Below. Also, I noticed that Sam Cheek charged 0,5 hrs on 2/11/15. A comment in the 1900-55 says Health and Safety but the backup is blank. Can you confirm what he did for you?

Clarification: Any samples taken that are to be used primarily for disposal purposes, the labor etc should be charged to the Removal Action. We completed our assessment activities following the completion of the hazcat/compatibility activities. I hope I did not give you the wrong direction.

Lets discuss further on Monday.

Thanks
